Washington Gas
A WGL Company

METER SET REQUEST FORM

Company Name		Today's Date
Company Contact		
Contact Work Phone #	Mobile Phone #	
Billing Street Address		
City	State	Zip Code

Please be advised that it may take up to seven days to set the meter. Prior to setting the meter:

- **The interior gas piping (house line) must pass a county/city inspection. Our meter installer will need to see an inspection tag from the county/city inspector.**
- **All interior gas lines must be valved and capped.**
- **The house line must be "tied-in" to the meter bar.**
- **2psi house lines must have maxitrol regulators installed with outlets plugged or capped off.**
- **Address and/or lot number must be clearly marked.**
- **Building must be unlocked and provide safe access.**

Address	Lot Number	Inspection Date	Meter Set Date
