# **ARLINGTON BOULEVARD PIPELINE REPLACEMENT**

/ MARCH 25, 2016

# WASHINGTON GAS DEMOGRAPHICS

---

**Has served the Washington, D.C., metropolitan area for over 166 years**

## **Mission:**

***“To deliver clean and efficient natural gas safely, reliably and at a reasonable cost”***

**Over 1 Million Customers in Washington , D.C., Maryland and Virginia**

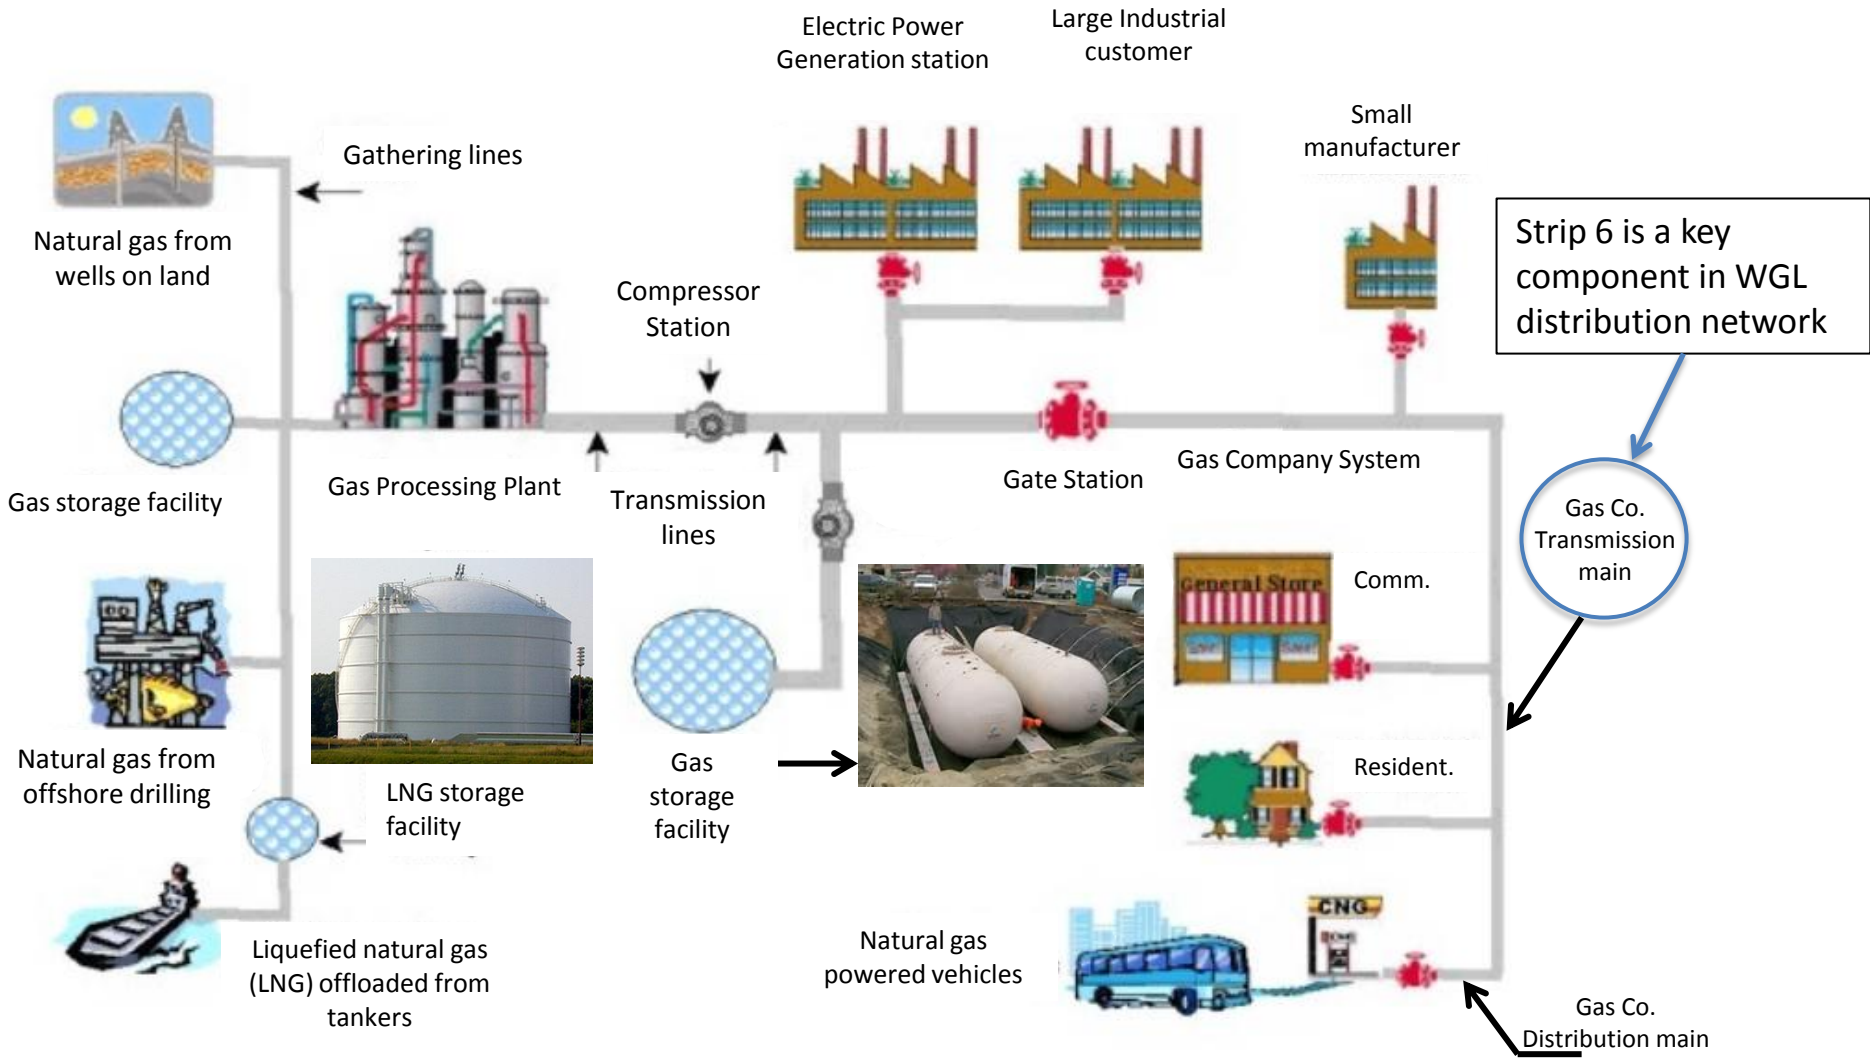

# ARLINGTON BOULEVARD PIPELINE REPLACEMENT

---

## PROJECT OVERVIEW

- Washington Gas will be replacing approximately 4,600' of 16" pipeline along Arlington Boulevard from N. Fillmore Street to North of N. Pershing Drive. This pipeline is referred to as Strip 6.
- The new 16" pipeline will run parallel to the existing main and will be installed in the roadway of the service road adjacent to Arlington Blvd (Rte 50), cross Washington Blvd. (Rte. 27) and tie into the existing pressure reducing station north of N. Pershing Street.
- The entire length of the new pipeline will be installed in VDOT Right of Way.

# PROJECT DETAILS

---

## **Duration:**

The project is scheduled to commence on Phase 1 before the end of July 2016 and be completed in the fall of 2017. Subsequent Phase scheduling will be determined as work progresses.

## **Work Hours:**

Work hours will be Monday through Thursday 9:00am-3:30pm and Friday 9:00am-2:00pm. Any changes to the work hours will be communicated.

## **Traffic:**

Washington Gas will adhere to a traffic control plan agreed upon by VDOT. One or more lane closures may be necessary along portions of the project, during which night work will be required. Parking will be prohibited on the Arlington Blvd. service road during construction in that area.
