

## Year 1 Carried Over Planned Projects

In our ongoing effort to provide you with safe and reliable natural gas service, Washington Gas has begun the first five years of a 40-year plan to replace gas main and service lines in various neighborhoods in the District of Columbia. **PROJECTpipes**, formerly known as the District of Columbia Accelerated Pipe Replacement Plan (APRP), is part of our ongoing pipe replacement work.

Through **PROJECTpipes**, certain portions of our natural gas infrastructure will be replaced in the coming years on an accelerated basis. For **Year 1 of PROJECTpipes, June 1, 2014 – September 30, 2015**, the Public Service Commission of the District of Columbia approved the following pipe replacement projects, which have carried over into Year 2:
