

# NOTICE TO THE PUBLIC OF AN APPLICATION BY WASHINGTON GAS LIGHT COMPANY, FOR AUTHORITY TO AMEND ITS NATURAL GAS CONSERVATION AND RATEMAKING EFFICIENCY PLAN

## CASE NO. PUE-2015-00138

On December 31, 2015, pursuant to Chapter 25 of Title 56 of the Code of Virginia, §§ 56-600 *et seq.* and 5 VAC 5-20-10 of the Rules of Practice and Procedure (“Rules of Practice”) of the State Corporation Commission (“Commission”), Washington Gas Light Company (“WGL” or “Company”), filed an application (“Application”) for authority to amend and extend its natural gas conservation and ratemaking efficiency plan (“Amended CARE Plan”).

In its Application, the Company proposes to revise and expand its portfolio of programs for residential, Commercial and Industrial (“C&I”), and Group Metered Apartment (“GMA”) customers receiving service under Rate Schedule Nos. 1, 1A, 2, 2A, 3 and 3A. WGL also proposes to increase funding to provide additional home-energy audits and weatherization projects to Low-Income customers.

For residential customers, the Company’s Application seeks approval of the following programs: (1) a revised Residential Equipment Program, which continues the High-Efficiency Gas Furnace (>90% AFUE) measure and adds new WiFi-Enabled Thermostat, Storage Water Heater, and Tankless Water Heater measures; (2) a new Web-based Home Energy Audit with Energy Conservation Kits Program; (3) a revised Low-Income Home Energy Audit and Weatherization Program; (4) a new Residential Weatherization Program; and (5) an expanded Behavioral Program.

Additionally, the Company proposes two programs for eligible C&I and GMA customers: (1) a new Direct Install Program; and (2) a revised Heating Equipment Program. The Company proposes to discontinue the following currently-approved commercial program measures: (1) Direct Contact Water Heater; (2) Infrared Heater; (3) Programmable Thermostat; (4) Boiler Turbulator; (5) Boiler Cut Out Control; (6) Boiler Outdoor Air Reset; (7) Commercial Combination Oven; (8) Commercial Rack Oven; (9) Commercial Conveyor Oven; (10) Commercial Steam Cooker; and (11) Low-Flow Spray Rinse Valve.

In its Application, the Company proposes a total budget of \$12,342,505, for its Amended CARE Plan for a three-year period to be effective from the first day of the May 2016 billing cycle. The Company states that the incremental costs associated with the cost-effective conservation and energy efficiency programs proposed for the Amended CARE Plan will be recovered monthly through a Care Cost Adjustment (“CCA”) applied to customers’ bills. WGL will also implement a decoupling mechanism, called the Care Ratemaking Adjustment (“CRA”). According to the Company, both the CCA and the CRA will be calculated and implemented using methodology previously approved by the Commission. Based on the Company’s proposed expenditures, the Company’s projections for the CCA for Virginia customers in the first year of the Amended CARE Plan are as follows: (i) \$6.75 for a typical residential customer using 735 therms per year; (ii) \$17.54 for a typical small C&I heating customer using 5,326 therms per year; and (iii) \$53.76 for a typical GMA heating customer using 16,315 therms per year.

The details of these and other proposals are set forth in the Company’s Application. Interested persons are encouraged to review the Company’s Application and supporting testimony and exhibits for the details of these proposals.
