

SHOULD I REPLACE AN OLD FURNACE THAT STILL WORKS?

**Washington
Gas**

A WGL Company

YES, IF YOUR FURNACE IS MORE THAN 15 YEARS OLD CONSIDER REPLACEMENT AND SAVE EVEN MORE WITH REBATES ON HIGH-EFFICIENCY FURNACES.

New high-efficiency natural gas furnaces operate at up to 98% efficiency, far greater efficiency than older furnaces.

Signs it may be time to upgrade your furnace:¹

- Furnace is more than 15 years old
- Energy bills are higher despite usage staying the same
- Rooms in your house are heating unevenly
- Furnace is excessively noisy or develops rattles, buzzes or hums
- Furnace has needed frequent repairs over the past two years

Don't Wait. Get A Furnace Rebate!

Rebates are available for Virginia residential customers. Eligible furnaces must be purchased and installed by a licensed contractor. Installation must take place by April 30, 2019, or while funds last to receive a rebate from Washington Gas. For full rebate details visit
