GET YOUR FURNACE READY FOR WINTER

SAVE UP TO \$400 WITH HIGH-EFFICIENCY FURNACE REBATES
WashingtonGasRebates.com/MDhome

STAY AHEAD OF WINTER BY PREPARING YOUR FURNACE

1. **Replace Air Filters:** Change filters every 1-3 months to maintain the performance and efficiency of your furnace.
2. **Schedule An Annual Furnace Exam:** Furnaces last an average of 15 years. As yours reaches that age, you may want to start planning for a replacement.
3. **Upgrade to a High-Efficiency Model:** If your furnace is over 15 years old even if you think it is in good working order, you may want to consider a replacement. High-efficiency natural gas furnaces operate at up to 98% efficiency, far greater than older furnaces.

Through the Washington Gas Maryland Existing Home Program, customers can qualify for high-efficiency natural gas furnace rebates. Take advantage of these tips and save money with rebates from Washington Gas.

To get started, find a participating EmPOWER contractor by visiting WashingtonGasRebates.com/MDhome.

Have questions? Please call our Application Processing Center at 1-833-286-0860. Our call center hours are from 8 AM to 7 PM, Monday through Friday.

EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money.
