GENERAL SERVICE PROVISIONS (Continued)

4. PAYMENTS

- a. The Company shall endeavor to have each Customer's meter or meters read no less frequently than every other month (bimonthly) to determine the actual consumption of gas. Where meters are read bi-monthly, gas consumption for the interim month, i.e., the month not scheduled for reading, will be estimated based on the prior consumption pattern when available and adjusted when gas is used for heating for variations in temperature on a degree-day basis. In the event the Company, due to circumstances beyond its control, is unable to obtain a reading on the scheduled meter reading date, the Company may, by appropriate means, request the Customer to furnish the meter reading. If the Company does not receive such a reading furnished by the Customer within 48 hours (excluding nonworking days) after the scheduled reading date, the Company will estimate the Customer's gas consumption for that billing period in the same manner described above for the interim month estimations. Any difference between the estimated consumption and the actual consumption will be adjusted automatically through subsequent meter readings.
- b. The customer is required to provide a minimum of three working days prior notice to the Company for service initiation or service termination.
- c. The Company shall render a bill to each Customer within a reasonable time after the monthly consumption has been determined in a manner outlined in the preceding paragraph. Where it has been necessary to estimate the Customer's consumption, the words, "Estimated Bill" shall be printed on the bill. In cases where arrearages are caused by under-estimations, the Company will allow at least the same length period during which a bill was estimated for making up such arrearages.
- d. Bills covering periods of 28 to 356 days inclusive shall be computed at monthly rates. The system charge when applicable to billings for periods covering other than 28 through 356 days shall be computed as follows: for 56 through 70 days, 84 through 105 days and 112 through 140 days, the system charge shall be multiplied by 2, 3 or 4 respectively; for all other periods, the multiplier shall be the number of days in the period divided by 30. For initial and final bills, the system charge shall be computed in the same manner as for regular bills.
- e. When a payment does not fully pay the outstanding balance of a bill, the payment shall be used to reduce the oldest unpaid amounts (arrears) for gas service. Deferred payment balances related to the underestimation of bills shall not be considered arrears so long as the Customer complies with the terms of the deferred payment arrangement with the Company.
